Mr. Vanourek,

Thank you for your response. At this time, the US EPA has no follow-up inspection scheduled for your facility after the inspection conducted on September 17, 2013. However, we have not received the follow-up documentation requested during the inspection that was due two weeks after September 17, 2013.

Please provide the documentation requested and confirm the date we will receive the information.

If you have any questions, please contact me.

Best Regards,

Dear Mr. Morales:

Thank you for sending along this information. I will most definitely utilize it as a valuable resource to understand and comply with federal and state environmental laws.

I also wanted to say to you personally, and please know that this is very sincere and absolutely not in any way an attempt to blow smoke here, that your visit upon our facility was a pleasant surprise in yourself and the people on your crew. You know, if most people heard me say that, they would think I was full of it. But, all of you were very professional, efficient, knowledgeable

and competent, very decent and cordial, friendly and I actually really enjoyed your visit and especially some of the banter. You and your people are neat. Please be proud of your professionalism and proud of your crew. You all have an important job to do and it is quite obvious to me that you do it well.

We are following up with the details that you wanted us to cover, we have Steve Williams our consultant helping us with this and we will have things in order for you on your follow up visit or contact.

Thank you for all your efforts.

Sincerely,

Pete Vanourek

Mr. Vanourek,

During the RMP inspection on September 17, 2013, I forgot to provide you this Small Business Information Resource Sheet on federal and state regulations.

Attached is the document.

If you have any questions, on the RMP regulations, please contact me.
